General Information:

The Valley View Road Landscaping includes plantings within the boulevard along the sidewalk on Valley View Road between McCauley Trail and Mark Terrace Drive. Typically, the boulevard is hydroseeded but we've found it difficult to grow grass in narrow boulevard areas – daylilies and other ground cover plantings on the other hand, seem to thrive in narrow boulevard areas and do not require as much maintenance as grass. Other plantings will be in the roundabout at Valley View Road and Braemar Boulevard along with other miscellaneous plantings on the remainder of the project.

The landscaping cost is included in the total special assessment. The plantings will be maintained by the contractor for 2 years.

Staff recommends awarding the Valley View Road Landscaping to Cedar Ridge Landscaping.
